

CDE ResMap Solar Cassette – ResSolCas For 125mm and 156mm Square Cells

Below are 2 configurations of the CDE ResSolCas [ResMap Solar Cassette] for 156mm x 156mm and 125mm x 125mm solar cells. Note that this cassette can handle both the sharp right angled and the rounded edge cells. The cassette has 14 slots with 3/8" pitch [2X normal 150mm round wafer cassette pitch]. The solar cell height is the same for both settings. The front edge of the cell is also at about the same position.

156 mm x 156 mm configuration:

125 mm x 125 mm configuration:
